

Tornado Safety Tips

This is to advise you that the National Weather Service has issued a tornado warning for South Los Angeles and Orange County. This includes the cities of Seal Beach, Huntington Beach, Westminster, Garden Grove, Irvine, Fullerton, Costa Mesa and Anaheim. In addition to the tornado, this storm is capable of producing three quarter to one inch hail and destructive straight line winds. When a tornado warning is issued based on Doppler radar, it means that strong rotation has been detected in the storm. A tornado may already be on the ground, or is expected to develop shortly.

If you are in the path of this dangerous storm...

- Move indoors and to the lowest level of the building
- Stay away from windows
- If driving, do not seek shelter under a highway overpass
- The safest place to be during a tornado is in a basement
- Get under a workbench or other piece of sturdy furniture
- If no basement is available, seek shelter on the lowest floor of the building in an interior hallway or room such as a closet
- Use blankets or pillows to cover your body and always stay away from windows
- If in mobile homes or vehicles, evacuate them and get inside a substantial shelter
- If no shelter is available, lie flat in the nearest ditch or other low spot and cover your head with your hands
